I am a web application developer actively seeking a job where I can contribute my talents and knowledge to help an organization grow. I am eager to take on new challenges and opportunities for professional growth in the field of web development.

EXPERIENCE

Full-stack Developer   kathmandu

Yaj Tech Pvt Ltd.   Aug, 2022 - Present

- Actively involved in web application development using PHP and Laravel framework, ensuring the development of robust and scalable solutions.
- Successfully maintained and enhanced frontend applications using Vue.js, implementing efficient state management with Pinia and creating responsive and cross-platform interfaces using Quasar.
- Conducted thorough testing and debugging of the APIs and frontend interactions to ensure smooth functionality.
- Continuously maintained and improved the APIs to meet changing business needs and optimize performance.
- Managed version control using Git, enabling seamless collaboration and effective code management.
- Took responsibility for configuring and maintaining Linux-based systems and server environments.
- Ensured secure and optimized deployment of web applications by utilizing Nginx.
- Gained hands-on experience in efficiently managing and storing data in cloud environments using Minio.io.

Laravel Developer   Kathmandu

KTM Labs   Mar, 2022 - Jun, 2022

- I completed my internship as a Laravel developer.
- Utilized Laravel's routing, controllers, models, and views to create dynamic and interactive web pages.
- Worked with Laravel's Eloquent ORM for efficient database operations, including data querying and model relationships.
- Gained exposure to Vue.js, a popular JavaScript framework, for frontend development within Laravel projects.
